### **Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance:

Pursuant to the Decision by the Board of Patent Appeals and Interferences rendered on 04/23/08, Chatterjee does not disclose processing cells in a table with a same synchronization marker together as an independent group, or that cells in the table are processed in a sequential order defined by the corresponding synchronization marker to render a grid. Chatterjee's updating information within a database is not equivalent or suggestive of assigning a synchronization marker to cells in a table and processing the cells in an order defined by the assigned synchronization markers. Further, there is not a nexus between the concept of synchronizing data in different versions of a database with processing cells in a table to render a grid by processing cells representing different aspects of a same version of the table in an order defined by each cell's synchronization marker. Therefore, claims 1-20 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Information Disclosure Statement***

2. The references to office actions of different applications cited in the IDS filed 06/23/08 have been placed in the file, but will not be listed on any patent resulting from this application because they are not in compliance with 37 CFR 1.98(a)(1).
